Bacteria-Dyed Running Top

SPORTSWEAR

The world's first bacteria-dyed running top.

Developed with **Positive Materials' Colorifix** dyed fabrics, this piece uses microbial dyeing to cut water, energy, and chemical use — without compromising color or performance.

Fully constructed with **bonded** and **flatlocked** seams for a smooth, durable finish.

Bacteria-Dyed

Lyocell Biker Shorts

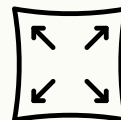

SPORTSWEAR

82% Lyocell 18% Elastane

These high-performance biker shorts are crafted from lyocell, offering a soft, breathable, and moisture-wicking alternative to nylon-heavy activewear.

A conscious shift in a polyamide-dominated category – proving that comfort and responsibility can go stride for stride.

4-way stretch

Moisture-wicking
